

Consulting

I do all my consultancy through Avec Solutions, including business and strategic planning, project management, event facilitation and team building. Avec Solutions also provides IT support, web development and photographic /digital media services.

You can contact me through any of the methods found on the contact page

For more information on Avec Solutions, [click here](#)

I also work for Landmark East, a sister company to Avec Solutions, and like it, owned by East Belfast Partnership , an urban regeneration charity in Belfast. Landmark East develops and manages property, making it available primarily but not exclusively to non-profit organisations. We also provide property related consultancy and project management to other non-profit organisations.

You can find out further information about Landmark East [here](#) .
